

Summit Energy Services Promotes Will Reedy to COO

Hired for Business Development in March, 30-year-old already named Chief Operating Officer of \$36 Million Business

December 28, 2011 - [Summit Energy Services](#), a leading oil field services company in North Dakota, has announced that Will Reedy has been promoted to Chief Operating Officer (COO) within the company. Reedy began working for Summit in March of 2011 and was named COO thanks to his expertise in managing the company's capital and his forward-thinking when it comes to opening new product lines.

A native of Villa Park, Illinois, Reedy graduated with a BS in Civil Engineering from the University of Wyoming. He is currently completing an Executive MS from the University of Wyoming in Business Administration. Only 30 years of age, Reedy began his career working for Exterran Water Management Services in Sheridan, WY via the acquisition of EMIT Water Discharge Technologies. At Exterran/ EMIT Will was part of a team that pioneered commercial coal bed methane water treatment and discharge. Will was one of the first eight employees at EMIT and helped grow the company up to the nine figure acquisition by Exterran. In his spare time, Will enjoys outdoor sports like backpacking, fishing and hiking.

QUOTE:

“Summit Energy Services is excited to name Will our COO, said Mike Sweeney, Owner and President. “His outstanding dedication to our customers, forward thinking mindset and continued effort to grow as a leader within the company made it any easy decision to honor him with this promotion.”
